

**PRAEMIA  
HEALTHCARE'S  
CONTRIBUTION TO  
THE UNITED NATIONS  
SUSTAINABLE  
DEVELOPMENT GOALS**

OCTOBER 2023

One of the ways the ESG issues are prioritised is by analysing the 17 UN Sustainable Development Goals (SDGs). Praemia HEALTHCARE has compared its activity and ESG strategy against these major goals to establish a link between the 169 SDG targets and its own objectives, actions and issues that are relevant to its business. This analysis made it possible to identify relevant targets corresponding to 14 SDGs to which Praemia HEALTHCARE can make a major contribution through its own activities and by implementing Primonial Group policies.

The selected goals were classified based on three priority levels, depending on the degree of Praemia HEALTHCARE's potential contribution to each of them:

- Core SDGs for Praemia HEALTHCARE as they specifically relate to its business activities, i.e. its investments in healthcare facilities and the healthcare services that are provided by its tenants. Three goals are considered as core SDGs.
- Priority SDGs: these are goals which Praemia HEALTHCARE has prioritised and already integrated into its solutions. Three goals are considered a priority.
- Significant SDGs: these are goals that are relevant to Praemia HEALTHCARE's activities and that are also integrated into its strategy. Eight goals are considered significant.

## CORE GOALS

# 3

**Good health and well-being**

Praemia HEALTHCARE contributes substantially to **SDG 3** and targets 3.4 (Non-communicable diseases) and 3.8 (Universal health coverage) through its investments in healthcare facilities, as well as through the health services provided by operators, notably in acute, post-acute, disability, mental health and elderly care.

# 10

**Reduced inequalities**

In addition, Praemia HEALTHCARE contributes substantially to **SDG 10** and target 10.2 (Empowerment and integration) by developing healthcare infrastructure and facilities, ensuring equal access to healthcare services and promoting inclusion in the areas in which it operates.

# 17

**Partnerships for the goals**

Praemia HEALTHCARE also substantially contributes to **SDG 17** and target 17.17 (Multi-stakeholder partnerships) through its partnerships with healthcare operators and SDG 3 by innovating and helping healthcare operators provide cutting edge and quality care.

**Praemia HEALTHCARE has identified four types of possible contributions to the Sustainable Development Goals:**

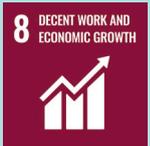

- Contribution through operational efficiency: this relates to all of Praemia HEALTHCARE’s internal operations dealing with environmental, social and governance issues, including actions to improve the efficiency of its processes.
- Contribution through its societal commitment: this relates to actions taken by Praemia HEALTHCARE itself to address the major challenges faced by society.
- Contribution through improvements to healthcare buildings: this refers to contributions made through specific actions to improve healthcare buildings.
- Contribution through healthcare services: this refers to Praemia HEALTHCARE’s indirect contributions through the healthcare services provided by its operator partners.

Praemia HEALTHCARE owns a real estate portfolio consisting of healthcare assets.

Praemia HEALTHCARE is managed under (i) an asset and fund management agreement with Primonial REIM France and (ii) a property management agreement with Primonial REIM Care.

Primonial REIM Care advises Primonial REIM France’s teams on the asset management and fund management of Praemia HEALTHCARE. Primonial REIM Care is responsible for the day-to-day operational management of the property assets owned by Praemia HEALTHCARE. Therefore, the following analysis table includes the contribution of Primonial REIM France and Primonial REIM Care to the SDGs.
